Phosphacore: Proven to Burn Belly Fat FAST!

Who else is fed up with belly fat and wants a slimmer waistline with the help of new clinically proven Phosphacore?

It's true... research from Norway's Medstat Medical Center shows the active ingredient in **Phosphacore** (an extract from the plant *Carthamus tinctorius*) may help oxidize subcutaneous abdominal adipose tissue (belly fat) -- within as fast as 28 days!

How Phosphacore Works...

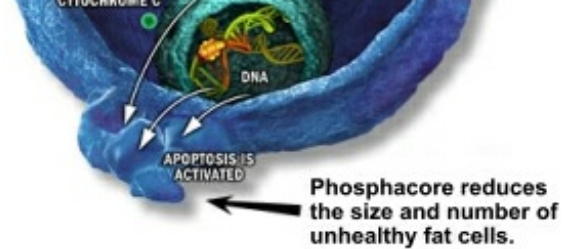

Phosphacore is different from other weight-loss products because it works by treating the **cause** of belly fat gain and not merely the symptoms. It does this by safely

reducing both the size and number of unhealthy fat cells.

Just check out this published scientific evidence...

- ☐ **Fights Abdominal Fat:** In a recent study from Uppsala University in Sweden, 25 people using the active ingredient in Phosphacore experienced a full **1.4 cm reduction of belly fat** within 28 days.
- ☐ **Replaces Fat with Muscle:** In another new study from Medstat Hospital in Lillestrom, Norway, people taking the active ingredient in Phosphacore **lost over a fifth of their fat** (20%) within just 3 months of use.
- ☐ **Helps Reduce Total Bodyfat:** A new study published in the *American Journal of Clinical Nutrition* shows that 118 people taking the active ingredient in Phosphacore lost an average of **5.6% more body fat** than people taking a placebo.
- ☐ **Safe and Natural:** A new 2-year study published in the *Journal of Nutrition* concludes that the active ingredients in Phosphacore cause **rapid fat loss and are both well-tolerated and safe.**

"A Supplement that Burns Fat"

"A fat-burning pill—it's everyone's dream. That dream may have come true. Norwegian doctors have determined that this nutrient really does reduce fat. Compared to the placebo group, those who took it lost about 9% of body fat, on average—regardless of diet or exercise habits. Researchers believe it may decrease the amount of fat stored after eating and help the body use existing fat for energy."

-Reader's Digest, Medical Update

"I Lost 8 Inches of Belly Fat!"

"I've always struggled with trying to keep from gaining weight in my lower body, especially around my stomach, buttocks, and legs. But I couldn't ever get rid of it!

"After 30 days of using Phosphacore, I'm amazed at how great it's working for me! **So far I've lost 17 pounds and 8 inches from my waist!** It's a new sense of freedom! Finally... Something that really works!!" :-)

-Kathleen H., Cleveland, Ohio

Recommended by Dr. Perricone

"This nutrient is a powerful aid in prevention and treatment of obesity. When taken in effective doses, it decreases body fat, **especially in the area of the abdomen.** Many studies show it helps prevent muscle loss and weakness associated with aging and disease."

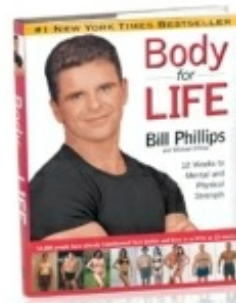

-Dr. Nicholas Perricone

"The Best Fat-Loss Remedy Today"

"As Science Editor for the #1 New York Times Bestselling book **Body-for-LIFE**, I've studied the various weight-loss products on the market. And in my professional opinion, **Phosphacore is the best available today.** I personally use this product and have seen substantial fat-loss benefits, especially from my stomach. I highly recommend this product."

-David Kennedy, Body-for-LIFE Editor

"I Lost 4 Jean Sizes in 30 Days!"

"I am 100% satisfied with this product. It's the only thing that has ever worked for me. The extra fat on my stomach and legs is melting away so fast. In fact, my jeans are falling off me! **So far I've lost 4 jean sizes in just 30 days...** I absolutely love this product and your caring customer service!"

-Erin Marie, Boulder, CO
